OBJECTIVE

Dedicated and enthusiastic aspiring Software Engineer with practical experience in building scalable web applications and delivering user-focused solutions. Seeking a Trainee Software Engineer role where I can apply my problem-solving abilities, learn from experienced professionals, and contribute to the development of high-quality software.

INTERNSHIPS AND PROFESSIONAL TRAININGS

TNSIF Training Program (Ongoing)

Trainee — Technical Training | Started July 2026

- Undergoing training in Artificial Intelligence and Machine Learning fundamentals and applications.
- Building soft skills and corporate/company readiness for a professional work environment.

Skill Lab Training — Shridevi Institute of Engineering and Technology

College-organized Skill Development Program

- Trained in programming languages: C, Python, and Java.
- Covered core subjects including Data Structures & Algorithms, OOP, Operating Systems, and Computer Networks.

EDUCATION

B.E. in Computer Science & Engineering *Aug 2023 – June 2027 | CGPA: 8.5/10*

Shridevi Institute of Engineering and Technology, Tumkur

- Coursework: Data Structures, Web Technologies, DBMS, OOP (C++), Software Engineering, Computer Networks.

PROJECTS

Intellectual Code Editor *React.js | Python | Rest APIs*

- Built an AI-assisted code editor with real-time syntax highlighting, intelligent autocomplete, and inline error detection to streamline the developer coding experience.
- Integrated a Python-based backend for code analysis and AI-driven suggestions, using REST APIs to deliver context-aware recommendations with low latency.
- Implemented a customizable multi-language editor interface with theming, keyboard shortcuts, and live preview, improving usability across different coding workflows.

Deepfake Defender — AI Media Authentication Platform *React.js | REST APIs | Python*

- Engineered a React.js frontend for an AI deepfake detection system with drag-and-drop file upload, real-time progress indicators, and confidence-score result dashboards.
- Integrated REST APIs with async/await data handling to communicate with backend ML models, applying optimistic UI updates to reduce perceived latency.
- Overcame CORS and large-file upload challenges by implementing chunked upload logic and robust API error boundaries, improving overall reliability.

TECHNICAL SKILLS

Languages: C, Python, JavaScript
Frontend: HTML, CSS, React.js, Responsive Design
Backend & DB: MySQL, MongoDB, REST APIs
Tools: Git, GitHub, Docker

CERTIFICATIONS

- Fundamentals of Python Programming — Great Learning
- Computer Networks & Internet Protocol — NPTEL
- GenAI-Powered Data Analytics — Forage

KEY STRENGTHS

• Analytical Problem Solver • Collaborative Team Player • Adaptable to New Technologies
